USEPA Docket No: CERCLA-10-2001-0240
Monthly Progress Report for November 2014

Dear Ms. Koch:

This monthly status report provides information required by the Portland Harbor Superfund Site Administrative Settlement and Administrative Order on Consent (ASOC).

1. ACTIONS TAKEN IN NOVEMBER 2014

- None.

Deliverables Approved by EPA

- None.

Deliverables Submitted to EPA and Other Actions

- On November 5, 2014, the LWG provided EPA a draft response to EPA's October 21, 2014 response to LWG clarifications and questions about natural recovery areas.
- On November 5, 2014, the LWG provided EPA a revised memorandum regarding the proposed hardness-based Manganese Preliminary Remediation Goal (PRG) approach to replace the Suter and Tsao (1996) Tier II Value in the Portland Harbor Feasibility Study that incorporates the changes requested in EPA's November 4, 2014 email. Windward recalculated the acute-to-chronic ratios per EPA's instruction.
- On November 6, 2014, a call was held with EPA to discuss the food web model for dioxins/furans.
- On November 7, 2014, a call was held with EPA to discuss the Feasibility Study (FS) database and the City of Portland's river mile 6E and 11E data.
- As a follow up to the LWG's October 14, 2014 letter to Rick Albright, on November 7, 2014, the LWG provided EPA with the LWG's documented corrections to incorrect factual assertions in EPA's October 3, 2014 response to the LWG's request for dispute resolution concerning background in Section 7 of the draft Remedial Investigation (RI).
- On November 13, 2014, the LWG provided EPA a revised draft RI Section 10 outline based on EPA's suggested reorganized structure and example polychlorinated biphenyl (PCB) text for the conceptual site model.

- On November 18, 2014, a Project Managers call was held with EPA and its partners.
- On November 21, 2014, the LWG provided two clarifications to EPA's notes from the November 18, 2014 Project Managers call.
- On November 21, 2014, the LWG provided EPA the updated EPA FS database with the corrections requested by EPA regarding quality control issues associated with the Arkema Engineering Evaluation/Cost Analysis (EE/CA) data that the LWG identified.
- On November 25, 2014, the LWG provided EPA a final memorandum regarding the derivation of a hardness-based Manganese PRG approach to replace the Suter and Tsao (1996) Tier II Value in the Portland Harbor FS memorandum to EPA.

Comments/Documents Provided by EPA

- On November 4, 2014, EPA requested additional edits to the final acute-chronic ratio in the manganese memorandum.
- On November 7, 2014, EPA provided the LWG discussion materials for the November 7 call to discuss the FS database and the City of Portland's river mile 6E and 11E data.
- On November 18, 2014, EPA notified the LWG that EPA has reviewed all of the issues raised by EPA's partners on the food web model and EPA has determined that the calibrated food web model as supplied to EPA by the LWG in 2009 as part of the Draft Bioaccumulation Modeling Report is acceptable for use in the revised FS. EPA indicated they are not approving the Draft Bioaccumulation Modeling Report, but will provide revised text from the Draft Bioaccumulation Report as part of a new appendix for the revised FS.
- On November 18, 2014, EPA provided the LWG notes from the November 18 Project Managers call.
- On November 25, 2014, EPA confirmed that the two clarifications on the November 18 Project Managers call notes provided by the LWG on November 21 are correct.
- On November 26, 2014, EPA provided a revised draft of the FS revision process.

2. PROBLEMS ENCOUNTERED, ANTICIPATED DELAYS, AND SOLUTIONS

- None.

3. RESULTS OF SAMPLING, TESTS, AND OTHER DATA RECEIVED

- None.

4. SCHEDULE FOR THE NEXT FOUR MONTHS

EPA has suspended nearly all RI and FS technical meetings and negotiations until the EPA project team concludes preparation of materials for the RI Section 7 dispute. EPA has also proposed revisions to the current FS revision process. Upon notice from EPA to re-engage on the FS technical issues, the LWG will coordinate with EPA to schedule focused technical FS subgroup meetings with representatives from the respective EPA and LWG teams. The specific FS topics will be consistent with the agreed-upon FS

revision process and, based on EPA input, may include resumption of the weekly FS process status updated. The following list of work covered by the ASOC is based on the latest EPA RI and FS project schedules and includes the following:

- December 2014: A Draft FS Section 2 is expected from EPA for LWG review.
- December 2014: Redline strike-out comments are expected on the Executive Summary of the Draft Final RI.
- December 2014: A Draft FS Section 3 is expected from EPA for LWG review.
- January 24, 2014: A Draft FS Section 4 and Executive Summary is expected from EPA for LWG review.

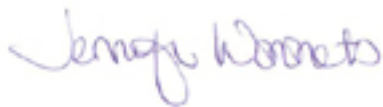

Submittal dates for pending documents currently under preparation by the LWG and scheduled for submittal in upcoming months are listed in Table 1: Status of Active LWG Deliverables—Portland Harbor RI/FS. This table includes pending and recently submitted deliverables for which EPA comments or approvals are required. Table 2: Status of LWG Deliverables—Portland Harbor RI/FS reflects the more complete list of LWG submittals and is equivalent to the former Table 1 provided in previous progress reports.

5. DOCUMENTS AND ISSUES AWAITING EPA RESPONSE

EPA comments or approvals have not been received on a number of documents that have been submitted to EPA as required by the ASOC; these submittals are listed in Tables 1 and 2. The LWG requests that EPA provide document approvals for these submittals to verify that the terms of the ASOC are being met and issues are resolved to maintain progress on the RI/FS. Also, the LWG believes that many of the documents listed as future submittals in Table 2 are no longer needed (see Status/Comments column) and requests that EPA review the list and confirm that these documents are, indeed, not needed.

If you have any questions, please give me a call at (503) 972-5014.

Sincerely,

Jennifer Woronets
LWG Administrative Project Coordinator
